PREMIUM WEIGHT MANAGEMENT SYSTEM

B-Slim in 3 Easy Steps

optimize

health

THE STORY:

B-Slim Weight Management System is a synergistically designed system of cellular-restoring, fat-fighting products.

Each one, if used alone, would help. But, when skillfully woven together in three easy steps, the B-Slim Weight Management System produces a quantum powerhouse designed to retrain cells so they will let go of unwanted fats naturally. The end result? A slim, trim, well-managed physique.

THE SCIENCE:

At birth, our cells are programmed to work perfectly. In this environment, they are pure, untouched and only store the nutrients that might be needed.

After a few months or years of “mismanagement” our cells accumulate unwanted material called fat.

Unless we do something about it—i.e. exercise,

diet, portion control, etc—our body stores the fat and, over time, loses the ability to release it. The end result: unwanted love handles or, worse, obesity.

THE DOCTOR:

Many supplements are derived from natural occurring elements in plants. These natural occurring elements make sense in that nature helps to affect nature, bringing the body into a natural, perfect state of homeostasis.

THE PROCESS:

1. Have a tasty, satisfying chocolate or vanilla shake as your breakfast meal.
2. Take the herbal supplements that cause your cells to lose fat—Day Burn, Night Burn and the appetite suppressant.
3. Assist your colon in being able to assimilate nutrients by keeping it clean with a gentle colon cleanse.

"Before I started B-Slim, I was sluggish, overweight and had too many inches around the middle. When I started the program, I immediately noticed my energy level went up and I felt so much better. I have so much energy that I started a training program. I have entered two 5K races this spring and I am looking forward to running in them."

"From the first day taking B-Slim, I felt like a different person. I started rapidly losing weight and feeling great. I could go to the gym and run five miles on the treadmill. I could do double backflips on the trampoline again. My pants started getting too big. My medium sized shirts started fitting again. My ankles stopped hurting and I started having tons of energy!"
