Health issues come on so slowly that we get used to feeling sluggish, stiff and exhausted. You'll be surprised at how much better you'll feel after using our effective blend of natural cleansing herbs.

## THE STORY:

These safe, yet powerful, cleansing herbs have traditionally been used to purify the blood, stimulate the liver/gallbladder, and cleanse the kidneys and bladder. They act as antimicrobial agents against fungi, bacteria, and parasites. They help cleanse the intestines and build back the beneficial flora in the digestive tracts for greater vitality and health. This is a gentle, full body cleanse.

## NUTRITION FOR THE BODY:

Your car runs better and lasts longer with regular oil changes and tune-ups. You can't trade in your

body like a car. You'll be amazed at how much better your body runs and how many annoying health conditions you can overcome and avoid simply by scheduling a quarterly or semiannual cleanse to keep your body in peak performance.

## THE SCIENCE:

Our bodies are continually processing toxins of all kinds, from those found in the air we breathe to the foods we eat and more. We have artificial hormones, pesticides, antibiotics, and unnatural chemicals in our processed and synthetic foods. The result can be constipation, diarrhea, candidiasis, various infections, a poor immune system, skin troubles and many other conditions. Periodic cleansing gets rid of this build-up and makes your body less vulnerable to these toxins and their inevitable consequences that only get worse with neglect.
