

# ENERGY COMBO™

POWER UP EVERY CELL WITH  
COQ10 AND LCARNITINE

restore

hope

CoQ10 and LCarnitine are a vital duo in the human biochemistry, because they spark the energy in every cell, especially the heart.

## THE STORY:

CoQ10 is vital for creating energy in every cell of your body, especially your heart. It is also a powerful antioxidant. LCarnitine is not only vital for energy production, but is also important in helping your cells burn fat and is especially important to the heart muscle.

## NUTRITION FOR THE BODY:

In today's fast-paced, stress-filled world, we all crave more energy. But many people get it from the wrong things – synthetic and other stimulants – creating dangerous health conditions. Our Energy Combo gives you the right kind of energy

without negative side effects. Instead of coffee or sugar and calorie-filled drinks, start your day with the 'feel-good' product.

## THE SCIENCE:

Many studies show that statin drugs significantly lower the levels of CoQ10 in the plasma, a necessary component for energy production. This could account for some of the side effects associated with statin drugs. Researchers doing heart biopsies have discovered that up to 75% of all patients with a range of cardiac diseases suffered from a CoQ10 deficiency. CoQ10 is a significant supplement for a healthy heart and a life full of energy. The addition of LCarnitine to this synergistic blend ensures a balanced and healthy body.

# ENERGY COMBO™

## Supplement Facts

Serving Size: 1 Softgel	Amount per serving	% Daily Value
Vitamin C (ascorbyl palmitate)	12 mg	20%
Vitamin E (d-alpha tocopheryl acetate)	75 IU	250%
Coenzyme Q10 (ubidecarenone USP)	30 mg	*
L-Carnitine (as L-carnitine fumarate 440 mg)	250 mg	*

\*Daily Value not established

### Other Ingredients:

Gelatin, glycerin, sorbitol, purified water, titanium dioxide, carab extract, annatto seed extract, plus a patented BioSolv® base (polysorbate 80, hydroxyated lecithin, triacitin, medium chain triglycerides). Free of starch, sugar, yeast, wheat, corn, milk products, and artificial flavors/sweeteners.

lifestyle

*"My 16-year-old son Gage started pitching practice every morning at 6 a.m., then went to school all day, and worked after school until baseball practice, which lasted until 8 p.m. Some nights, he'd then have homework. Those were long, exhausting days and his friends suggested energy drinks. I told him to try taking the Energy Combo instead. Two tablets were too much because he couldn't go to sleep, he was so energized.*

*But one in the morning is perfect. He keeps at an even keel of high energy all day and doesn't have the side effects from the stimulants in energy drinks. At the end of the day he just calms down to normal and has a good night's sleep."*

*"Energy Combo is one of my favorite products from JD Premium! I used to go home from work so tired I had to take a 20 minute nap before I could even attempt to make dinner. And chores? Forget about it. I take one Energy Combo around 11:30 or 12 and I am good to go for hours! My family loves the earlier dinner time and I love that my house is so much tidier each day!"*
