

MVX DAILY™ VITAMIN AND MINERAL

optimize health

MVX Daily provides essential nutrition support for every function of your body, including immune support, cardiovascular health and metabolism. This vitamin is truly a premium vitamin/mineral for optimal health and vitality.

THE STORY:

Most people are confused about how we get sick and why we age. It's not about 'catching' a bug or 'normal' aging. It's about free radicals, inflammation and missing nutrients. Your body requires antioxidants to 'mop up' free radicals before they can destroy your health. Free radicals can cause issues like sticky cholesterol, chronic inflammation and DNA damage. Toxins and stress wreck havoc on our health without key nutrients.

In our high-stress, high-tech society, our bodies are bathed in free radicals, toxins and chronic inflammation. But with optimal anti-oxidants and anti-inflammatory nutrition, disease is far more optional than we realize.

It's impossible to eat enough fruits and vegetables every day to get sufficient antioxidants to combat today's antioxidant

overload. You would need many pounds of a wide variety of fruits and vegetables, too difficult to source, chop, and prepare.

NUTRITION FOR THE BODY:

We use raw ingredients like kale, spinach, apricot, blackberry, blueberry, cranberry, grape, beet, papaya, chlorella, spirulina, cauliflower, broccoli, wheat grass and pineapple in greater potency than you would find in the most power-packed superjuice supplement. These ingredients are blended with the most bioactive forms of vitamins and minerals that no superjuice can begin to match for complete nutrition and bioavailability.

THE SCIENCE:

Most people don't realize how vital a potent vitamin/mineral supplement is until it's too late. To function properly, every cell requires a careful balance of essential nutrients in a powerful, pharmaceutical-grade supplement. This is especially true for those with poor diets, weak immune systems, exposure to toxins, age-related health problems, high-stress lifestyles or pregnancy.

"I met with my pastor and hunting partner the other night and told him that if he could feel as good as I feel, he would get involved with JD Premium. I'm 43 years old, and since I've been taking the MVX Daily, K48, and SolRD, I feel like I did when I was 20 years old! I didn't get in the shape I wanted to for elk hunting this year, so ordinarily I would be an absolute cripple for three days after a hard day of hiking through the mountains. But this year, I felt absolutely terrific. Over the course of three

weeks, I hiked over 50 miles up and down mountains with tremendous endurance, and I could get up the next day and go again without muscle pain or fatigue."

"One year ago I was diagnosed with osteoarthritis. From age twelve on I rode bulls and bucking horses, played football and moved pipe. I was 46 years old and my body hurt. Six months after being diagnosed, I started taking the MVX Daily,

K48, and SolRD, and within one week I didn't hurt. The inflammation was gone. After six more months I had a visit with my doctor. He was expecting the worst. But when I told him what I felt like and what I had been taking, he wanted to put more of his patients on the products right away. I will not and cannot go without the Essential 3, ever."
